

Installing EndNote on Campus Macs

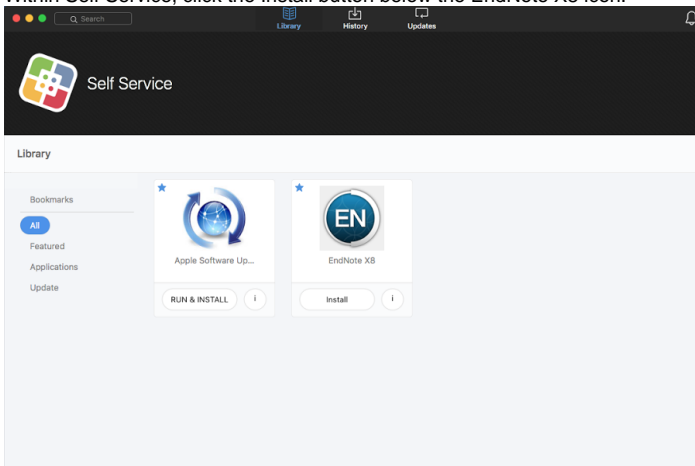

1. Click on the Desktop to make the Finder the active application.
2. In the top menubar, open the Go menu and choose Applications.

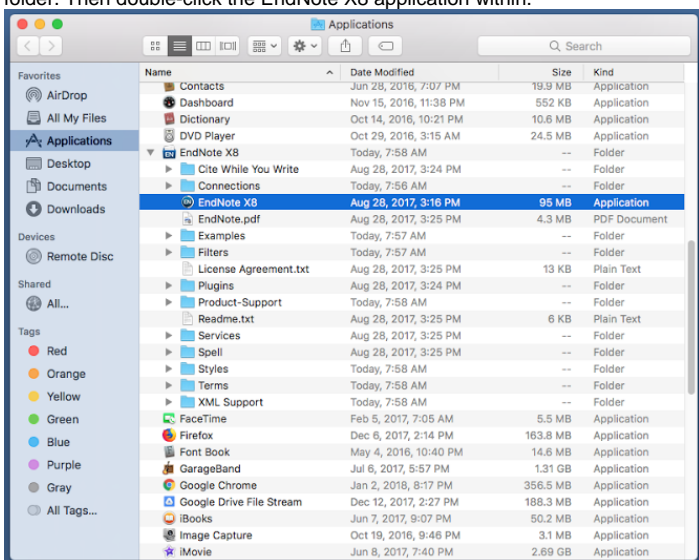

3. Open the Self Service app.

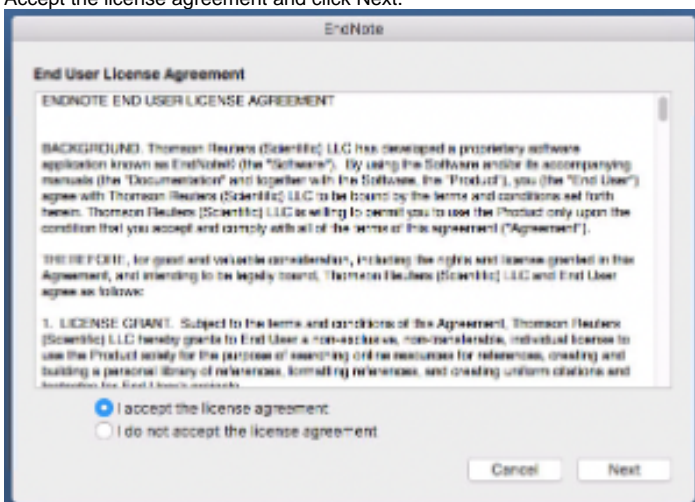

4. Within Self Service, click the Install button below the EndNote X8 icon.

5. Wait for the installation process to complete. Once it has completed, close Self Service and open the EndNote X8 folder within the Applications folder. Then double-click the EndNote X8 application within.

6. Accept the license agreement and click Next.

7. Follow the prompts to set up an EndNote account.
