

Drupal: Add Statistics block to a page

Examples of Statistics block

Example of **Statistics block with Big Text** at <https://www.fredonia.edu/about/offices/advancement-engagement-economic-development/economicimpact>

Example of **Statistics block with Icons** at <https://www.fredonia.edu/faculty-staff>

How to add a Statistics block above the Body section:

To add a Statistics block to a page above the Body section, click the **Add New Statistics** button.

Statistics

No Statistics added yet. Select a Statistics type and press the button below to add one.

Add new Statistics

Complete all the fields for Heading, Statistic Type, Big Text/Icon Class, Title, URL and Supporting Text for all three items to appear on the page.

Statistics

Statistics type: *Statistics: Three*

Heading *

Statistics *

Statistic Type *

- Big Text
 Icon

Big Text/Icon Class *

Title

Title

URL

The link title is limited to 128 characters maximum.

Supporting Text

Statistic Type *

- Big Text
 Icon

Big Text/Icon Class *

If **Big Text** is selected above, enter the big text to print. Otherwise if **Icon** is selected, enter a [Font Awesome](#) or Fredonia icon css class.

Title

Title

URL

The link title is limited to 128 characters maximum.

Supporting Text

Statistic Type *

- Big Text
 Icon

Big Text/Icon Class *

If **Big Text** is selected above, enter the big text to print. Otherwise if **Icon** is selected, enter a [Font Awesome](#) or Fredonia icon css class.

Title

Title

URL

The link title is limited to 128 characters maximum.

Supporting Text

Collapse

Remove

To get the Icon Class code to use for an Icon:

1. Visit: <https://fontawesome.com/icons>
2. Click on the icon you want to use at FontAwesome.
3. Click on the icon HTML code that begins with `<i class="fa... ></i>`

The screenshot shows the Font Awesome icon page for 'address-card'. The icon name 'address-card' is displayed with a 'PRO' badge. Below it, the 'Light Style (fal)' is selected. The HTML code `<i class="fal fa-address-card" ></i>` is shown, and a red circle highlights it with a tooltip that says 'Click to Copy HTML'. Other details include 'Users & People' and 'Updated: Version 5.0.3'.

4. In Drupal, click the button for "**Icon**" in **Statistic Type**.
5. Paste the HTML code into the field for "Big Text"/Icon Class. Remove the code outside of the quotes so that the result looks like this: **fal fa-address-card** - *no quotes or other code.*

Statistics *

Statistic Type *

- Big Text
- Icon

Big Text/Icon Class *

fal fa-address-card

If **Big Text** is selected above, enter the big text to print. Otherwise if **Icon** is selected, enter a [Font Awesome](#) or Fredonia icon css class.
