

Drupal: Create a new web page

How to use Drupal to create a new web page on the Fredonia public website.

Requirements

- Drupal Web Publishers *must* attend a Drupal training. At the Drupal training, Web Publishers are granted access to edit web pages for their department website. Send requests for Drupal training to webrequest@fredonia.edu.
-

Important:

Drupal Web Publishers are no longer able to create their web pages in Drupal. Please follow the steps below to create a new page in Drupal.

Step-by-step guide

1. Please use the **Web Services Request** form at fredonia.edu/webrequest to request a new Drupal web page.
2. Choose **Create a new page or site** from the **Type of web service** on the web form.
3. Please provide the name of the new web page and the department or section of the website that it should appear in.
