

Drupal: Add and Edit a Page Widget

Widgets can be added to any basic page and will appear after the Body content.

To add a Widget:

1. After the Body and Accordions fields, in the **Basic Page Widgets** section of a page, select a **Widget Type** then click **Add new Widget**.

Basic Page Widgets

No Widgets added yet. Select a Widget type and press the button below to add one.

Widget type

Add new Widget

2. Choose one of the Widget types

Widget type

- ✓ Cards: Info
- Cards: Profiles
- Checkerboard
- Events
- Flexboxes
- Gallery
- Links
- Statistics: Three
- Story

To edit or remove a Widget

If a web page has an existing Widget, scroll down to the **Basic Page Widgets** section, and click the **Edit** button to change a widget or click the **Remove** button to delete it.

Basic Page Widgets

Widget type: *Cards: Info*

+ **Edit** **Remove**

Widget type

Add another Widget

Types of Widgets:

Cards: Info:

Can include Title, Body, Image, and a Link

Cards: Profiles

Used for people

Checkerboard

Alternating Image and Text blocks

Events

Automatically displays selected events from events.fredonia.edu

This widget type requires initial configuration and set-up by the Web Team.

Please use the Web Work Request at fredonia.edu/webrequest to request the Events Widget.

Flexboxes

Three images with headlines, body text, and a link.

Gallery

An image gallery with captions.

Links

Simple two blocks of links

Statistics: Three

A block to display three statistics in a section.

Story

Pre-prepared stories that profile alumni and students.
