

How do I select the "Remember me for 12 hours..." checkbox if the Duo Authentication Prompt is automatically sending a push?

The Duo Authentication Prompt will gray out the rest of the prompt during an automatic push. Follow these steps to select the "Remember me for..." checkbox:

Click Cancel on the automatic push message at the bottom of the prompt.

Select the Remember me for 12 hours... checkbox.

Initiate another push and authenticate. You will now be remembered on that browser on that computer for 12 hours.
