

Team Drives in Google

Information

"Google Team Drives are shared spaces where teams can easily store, search, and access their files anywhere, from any device. Unlike files in My Drive, files in Team Drive belong to the team instead of an individual. Even if members leave, the files stay exactly where they are so your team can continue to share information and get work done."¹

This is currently only available to Faculty and Staff at Fredonia.

For more information, please visit this website: [Getting Started with Team Drives](#)
