

Campus Access Control Services

As part of the University's integrated physical security systems, the campus access control services include the following:

- facilitating requests for FredCard access for individuals to interior and exterior doors within residential and academic buildings
- facilitating automated lock and unlock schedules for interior and exterior doors
- access control compliance reporting
- remote security management for badging, alarm and event monitoring
- project management, planning, designing, and programming the campus access control systems infrastructure: communication panels, iclass card readers, sounders, REX motions sensors, contacts, and security cameras.

Need Assistance?

- For Card Access Control Assistance, submit a [Work Request!](#)
- For Building Online Security System or CRN Based Clearance Codes, submit a [Tracker Ticket!](#)

(** All CRN Clearance Code, special event or guest access requests need to be submitted a minimum of two business days before they are due.**)

If you need card access to a given building or door, please contact the assigned Building Access Coordinator (BAC) using the list below.
