

# Macintosh 10.5.x and 10.6.x Setup Directions

## 1. Manually Setup your Wired Network for Mac

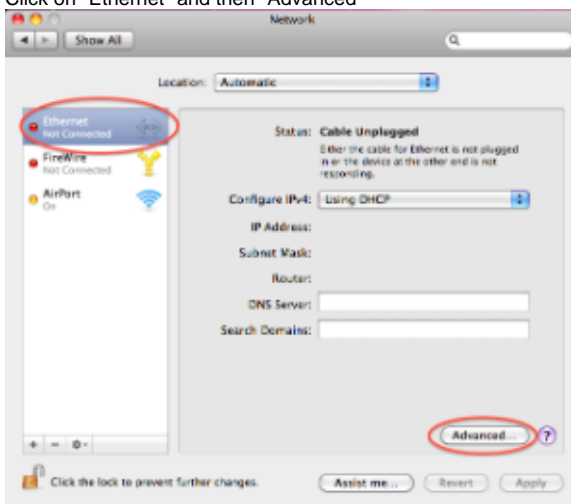

Please contact the ResNet Office at anytime if you feel that you need help with any of this.

Please find a PDF of these directions [here](#).

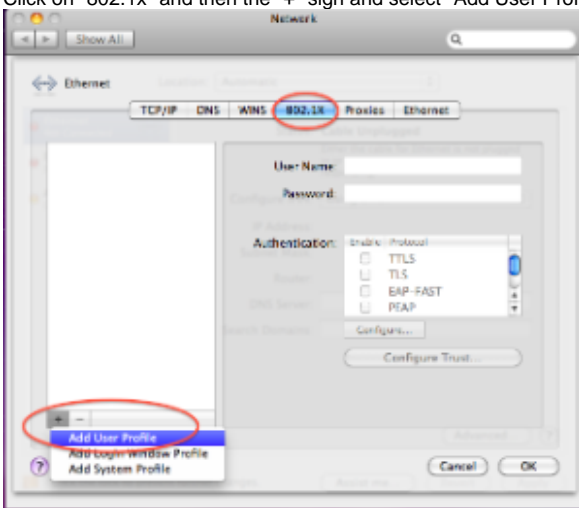

- a. Open "System Preferences" and click on "Network"

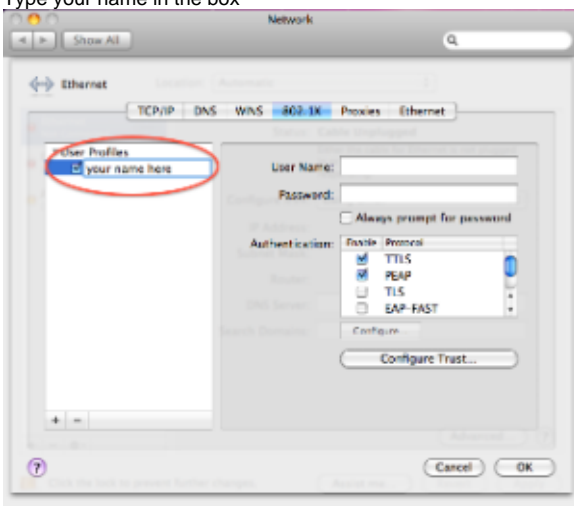

- b. Click on "Ethernet" and then "Advanced"

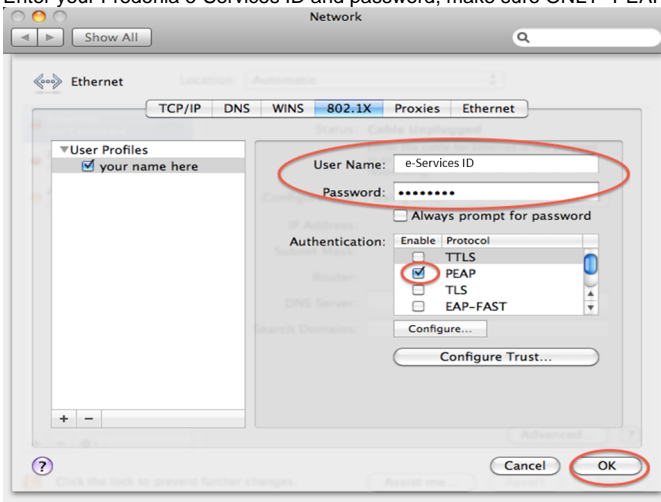

c. Click on "802.1x" and then the "+" sign and select "Add User Profile"

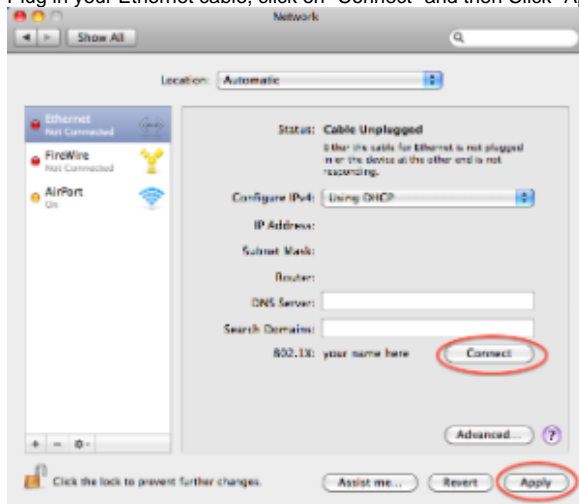

d. Type your name in the box

e. Enter your Fredonia e-Services ID and password, make sure ONLY "PEAP" is checked and click "ok"

f. Plug in your Ethernet cable, click on "Connect" and then Click "Apply"
