

Grading Using Ratings in Forum and Open Forum

How do I grade my discussion boards using the Rating feature?

Step-by-step guide

1. Open the Forum or Open Forum that the discussion took place in
2. Read the first student post
3. In the Rating drop-down menu choose the value of the post

The screenshot shows a forum post titled "Chapter 1 Response Question" by "Dude Melohusky" dated "Saturday, March 21, 2020, 10:29 PM". Below the post title, there is a text area that says "This is where the students post would be". At the bottom of the post, there is a "Sum of ratings: - Rate..." dropdown menu. A red box highlights the dropdown menu with the text "Choose the value of the post." and a red arrow pointing to the dropdown arrow.

4. Continue reading and recording values for the discussion board
5. The gradebook will total the points for each student and place those totals in the gradebook.
